Re: Comment Deadlines Established Regarding the LightSquared Technical
Working Group Report, IB Docket No. 11-109

Dear Ms. Dortch:

I am the mother of a rising high school senior in a suburb of Baltimore. I recently came across some materials related to a new wireless communications system that is designed to provide greater access to underserved areas across America and designed to increase competition in the wireless communications arena – it is called the LightSquared network. Of course, you are aware of the hard work and conscientious work of LightSquared since 2003. The process has been transparent and inclusive.

I write seeking your support for the goals pursued by LightSquared. As the mother of a teen, I know the increasing role cell phones play in the lives of our youth. The next generation will be connected (or not connected) by wireless devices. Let's help America stay ahead of the curve and allow innovation to continue.

Sincerely,

Tamera Monroe
